Most Profitable Store

Store 55
Profit : 830.551,75 €
Transactions : 622

Most Transaction Made

Store 9
Profit : 589.704,58 €
Transactions : 658

A high volume of transactions does not guarantee significant profits. For example, **Store 38**, may handle fewer transactions yet still achieve relatively high profit margins.

Least Profitable Store

Store 2
Profit : 6.925,99 €
Transactions : 4

Store 2 records the lowest profit and has the fewest transactions.

In-Store Performance

Store Name	Total Transactions	Total Profit	Years in operation
Store 3	0	0	13
Store 7	0	0	18
Store 11	0	0	16
Store 25	0	0	15
Store 35	0	0	18
Store 46	0	0	13
Store 52	0	0	16
Store 58	0	0	18
Store 60	0	0	20

These stores have been operating for **more than 10 years**, yet they don't have any transactions.
This situation is **concerning**, as keeping stores operational incurs **expenses** as well.

Average Delivery Time

The **online store's delivery duration** has notably **improved**, decreasing from an average of 7,29 days in 2016 to **3,84** days in 2021.

Average Order Value

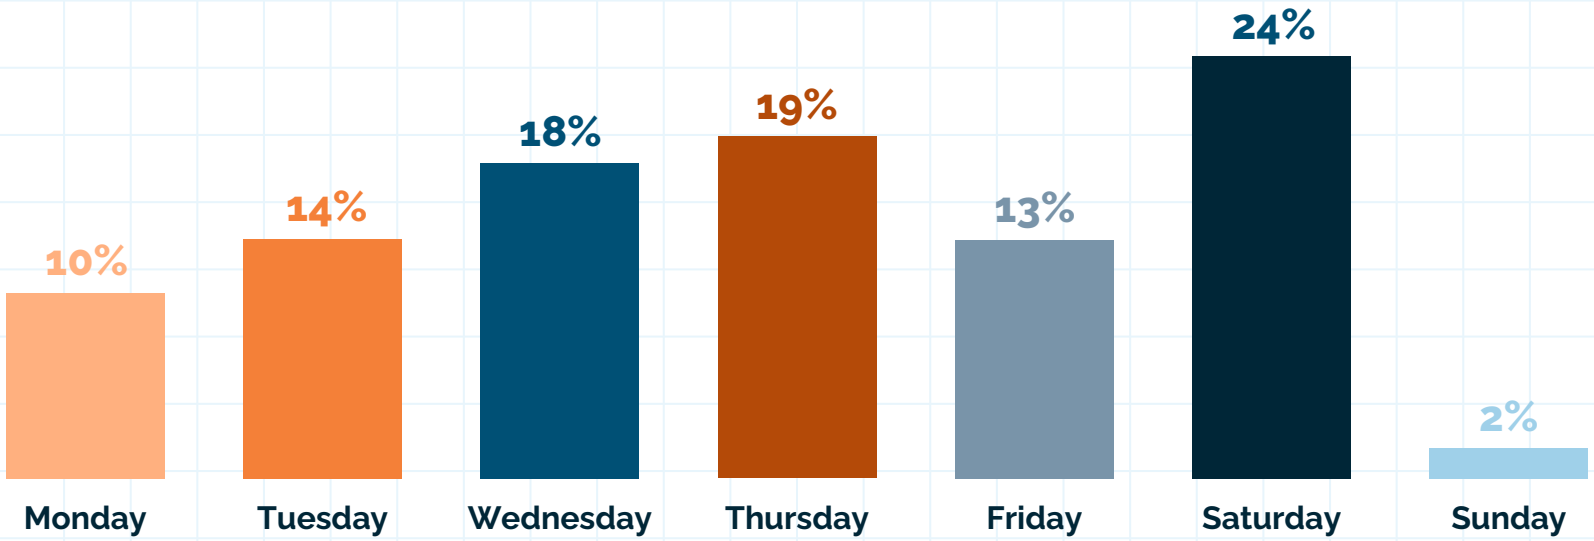

In-Store
1.295€

Online
1.224€

Online sales are quite **competitive** with in-store sales, especially given that there are a total of **66** physical locations.

Transactions

Most Transactions are made on **Saturdays** and the least on **Sundays**.

Customers

15.266

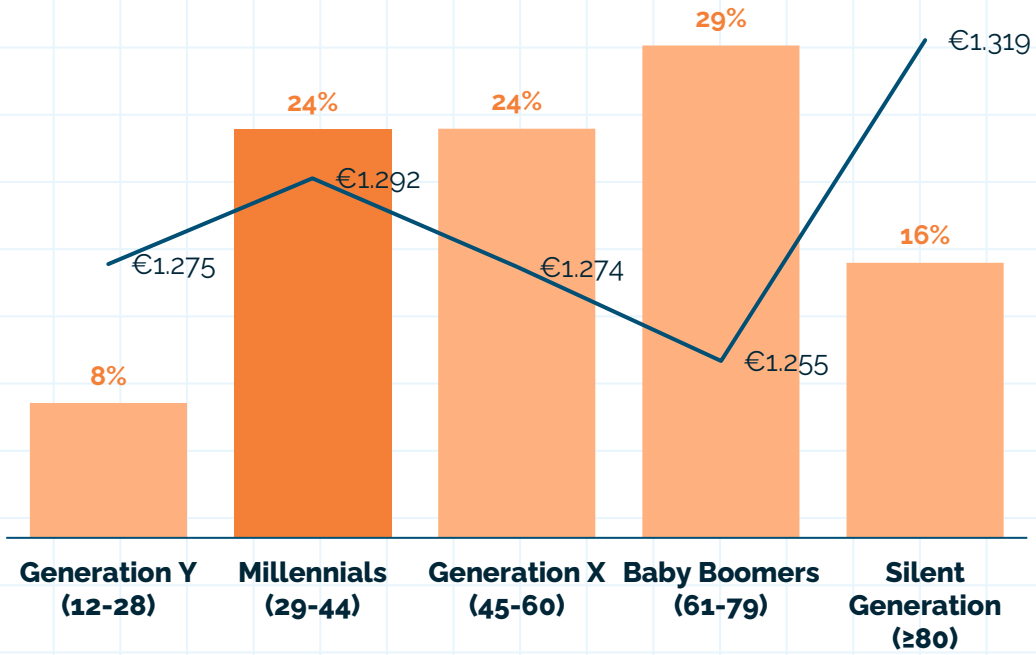

Total Customer

AOV: 1.283 €

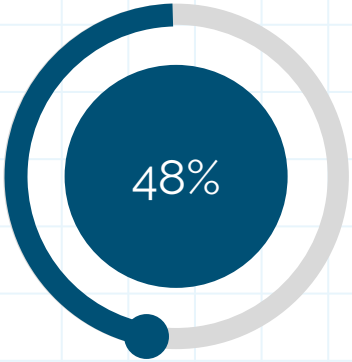

AOV: 1.277 €

The minimal differences of Average Order Value suggest relatively **similar** purchasing behavior between male and female customers.

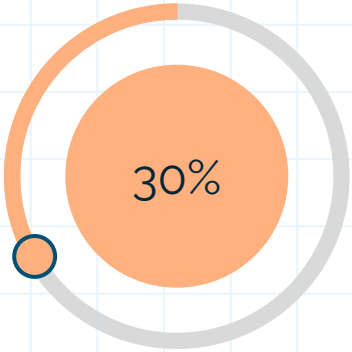

Millenials shows balance between customer volume and average order value.

Customers Behaviour

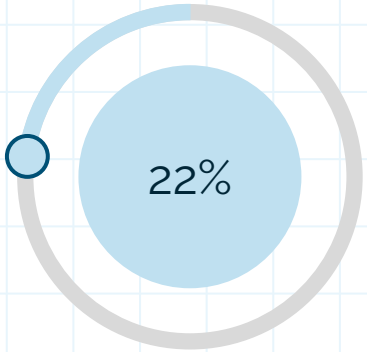

Frequent Customer

Completed multiple transactions.

One Time Customer

Completed one transaction

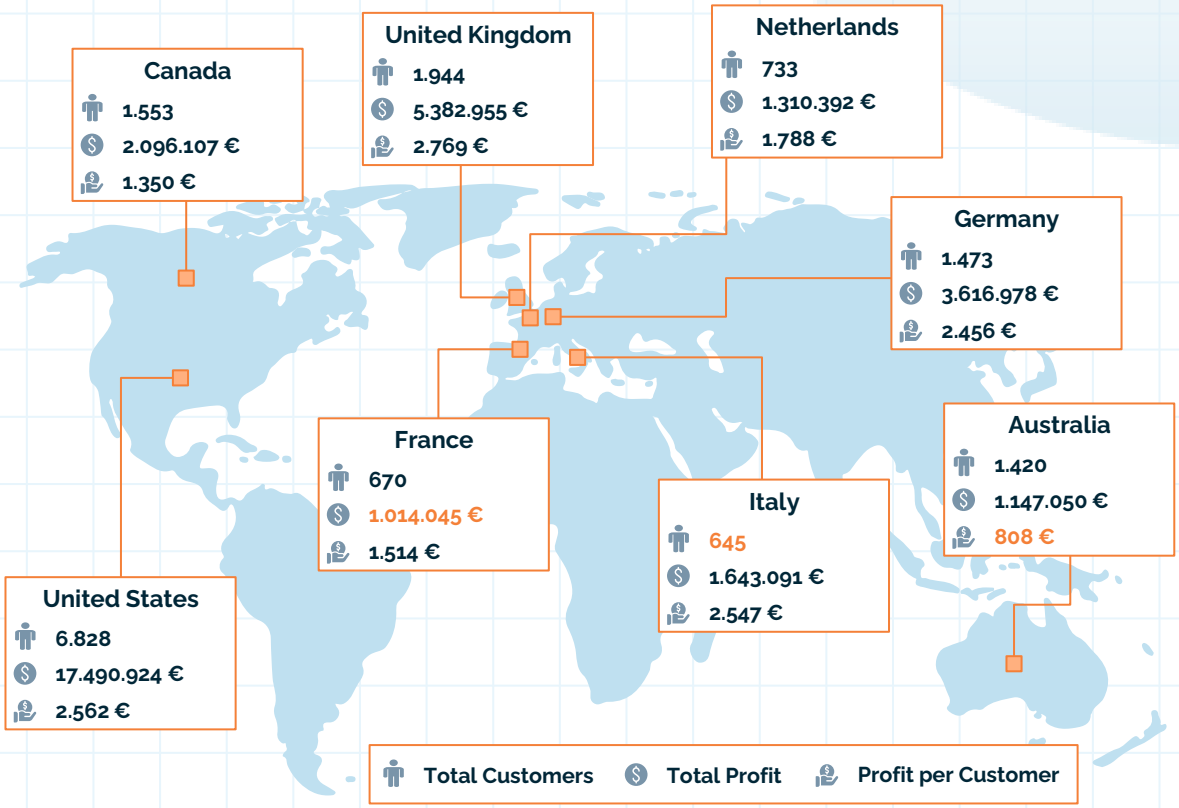

Potential Customer

No transactions.

The company has relatively strong base of loyal customers, but also an **opportunity** to convert **one-time** or **potentia**l customers into more **frequent** buyers.

Countries

The majority of customers are located primarily in the **USA**, **UK**, **Canada**, **Germany**, and **Australia**.

In **France**, the **total profit** is the **lowest**, but has relative high profit per customer, due to low customer volume.

In **Italy**, the **total customer** is the **lowest**, but has relative high profit per customer, due to high profit margins.

In **Australia**, the **profit per customer** is the **lowest**, due to a combination of low profit margins and a high customer volume.

Recommendations

Low Profit, Low Customer, Low Transaction

Increase Profit & Transactions

- Evaluate costs & stores with low profit
- Introduce new products
- Create bundle products & premium services
- Offer more promotions during March, April and on Sundays, such as limited-time deals, discounts, etc.
- Maximize peak seasons on May & December
- Promoting on Black Friday, Cyber Monday, etc.
- Partnering with shipping companies to accelerate delivery times.

Attract Customers

- Improve online & in-store marketing efforts
- Utilize targeted advertising
- Engage with customers
- Create loyalty programs
- Bonus or discount on birthday
- Expand markets
- Explore partnerships

Thanks!
